

# Outreach Team – Starting Points

## 4.7.A Evaluation D-PHYS 2020

 *Our aims, strategy and efforts in implementing sustainability in our operations are presented to the external evaluation committee in Autumn 2020.*

## 4.7.B Reporting

 *D-PHYS members are encouraged to report on particular implementations of sustainability in established reporting channels.*

## 4.7.C Communication

 *D-PHYS maintains a mailing list on sustainability where news, events and suggestions can be communicated to interested department members. A departmental wiki on sustainability collects knowledge, implementations and ideas.*

## 4.7.D Roundtables

 *Organise regular roundtables on sustainability*

## 4.7.E Committee Work

 *D-PHYS members bring up and discuss relevant issues of sustainability (including CO<sub>2</sub> impact) in their work in departmental and external committees.*

## 4.7.F Alumni Talks

 *We may invite D-PHYS alumni who are actively involved in the green economy or institutions working on sustainability for career networking talks and events.*

## 4.7.G Conference Reporting

 *Assessing and reporting the CO<sub>2</sub> impact of workshops could be done at the level of common workshop tools (e.g. indico).*

## CO<sub>2</sub> Doc Color/Icon Scheme

 *actions that we propose to implement as policies of D-PHYS, such as revised emission goals, measures to reduce air travel and promotion of videoconferencing;*

 *guidelines that are intended for implementation by individuals in the sense of a best practice, e.g. the participation in virtual conferences or sustainable travel planning;*

 *ideas for further development and long-term implementation by the department or in a larger context, for example ETH-wide, such as possible incentives for sustainable research.*
